

Master Paste Original™ Encaustic Paste

SECTION 1: Product and Company Identification

PRODUCT NAME:	Master Paste Original™	COMPANY NAME:	Encaustic World Ltd.
OTHER APPELLATION:	MPO™	COMPANY ADDRESS:	630 Sainte-Croix Ave Suite 100
LABEL CODE:	Pending.	CITY:	Saint-Laurent
CAS NUMBER:	N/A Product is a mixture.	PROVINCE:	Québec
GENERAL USE:	A formulated soft paste art medium for use in the creation of visual arts by means of applying the product in thin layers on a given surface.	COUNTRY:	Canada
		POSTAL CODE:	H4L 3Y2
		PHONE NUMBER:	(514) 605-1262
		WEBSITE:	www.masterpasteoriginal.com

SECTION 2: Hazardous Ingredients Identification

The following is a list of OSHA regulated components present within this product at a concentration > or = 1%:

None – Not Applicable

The following is a list of components considered carcinogenic or potentially carcinogenic contained in this product as indicated by OSHA, IARC, ACGIH or NTP:

None – Not Applicable

SECTION 3: Physical and Chemical Properties

APPEARANCE:	Off white, waxy solid.	VAPOUR DENSITY (air = 1):	Not Known.
BOILING POINT (°C):	Not Known.	PERCENT VOLATILE (%):	Not Known.
MELTING POINT (°C):	65°C.	ODOUR:	Citrus Aroma.
SPECIFIC GRAVITY:	Not Known.	pH (100%):	Not Applicable.
SOLUBILITY IN WATER:	Insoluble.	pH (1% SOLUTION):	Not Applicable.
VAPOUR PRESSURE (kPa):	Not Known.		

SECTION 4: First Aid Measures & Hazard Identification

- CAUTION:** When used as directed, the product should never be in a molten nor melted state due to exposure to heat (see section 3). Therefore, the product should not produce smoke, fumes or a burnt odour. Nonetheless it is advisable to use this product in a ventilated area.
- EYE:** If irritation or redness develops from exposure to fumes generated by heating the product, seek fresh air and rinse eyes with clean water. If irritation or redness persists, seek medical attention. For contact with the molten material, gently open eyelids and flush affected eye(s) with cold water. Seek immediate medical attention.
- SKIN:** Solid material is not expected to be a skin irritant; however, skin contact with molten product may cause thermal burns. Leave material on skin and flush or immerse affected area(s), using cold water. Seek medical attention. No harmful effects from skin absorption are expected.
- INHALATION:** Vapors emitted from molten product are expected to have a low degree of irritation by inhalation. If respiratory symptoms develop from exposure to fumes produced by molten material, seek fresh air. If symptoms persist, seek medical attention. If breathing is compromised, immediately begin artificial respiration. If breathing difficulties persist and/or worsen, oxygen should be administered by qualified personnel. Seek immediate medical attention.
- INGESTION:** No harmful effects expected while product is in solid state, otherwise seek medical attention.
- NOTE TO PHYSICIAN:** None.

SECTION 5: Fire and Explosion Data

- | | | | |
|-----------------------------------|----------------|------------------------------|---|
| FLASH POINT (°C): | > 150°C | EXPLOSION HAZARDS: | None |
| FLAMABILITY LIMITS | | SPECIAL INSTRUCTIONS: | None |
| • LOWER LIMIT (%): | Not Applicable | BURN RATE: | No Data |
| • UPPER LIMIT (%): | Not Applicable | EXTINGUISHING MEDIA: | Dry chemical, foam, water, sand or earth. |
| • AUTO-IGNITION TEMP (°C): | Not Applicable | | |

SECTION 6: Accidental Release/Spill/Leak Measures

- GENERAL:** This product may burn but will not ignite readily. Keep all sources of heat and/or ignition away from spill/release. This product is non-hazardous and may be washed with soapy water.
- SMALL SPILLS:** Sweep up and package appropriately for disposal.
- LARGE SPILLS:** Contain and absorb with suitable absorbent e.g. soil, sand and then dispose of.

SECTION 7: Handling and Storage

HANDLING: Wash thoroughly after handling.

STORAGE: Product is not classified as dangerous goods. Keep container(s) tightly closed. Use and store this Product in cool, dry, well-ventilated areas away from heat and all sources of ignition at temperatures below 30°C. Store only in approved containers. Protect container(s) against physical damage. Keep out of reach of children.

SECTION 8: Exposure Controls/Personal Protection

RESPIRATORY: If used as directed, this product is unlikely to be inhaled; therefore, no respiratory protection is required when working with the solid material. If airborne concentrations of wax fumes, generated from molten wax, are expected, an air-purifying Respirator with a dust/mist/fume filter may be used.

SKIN: Not normally required for solid material, the use of thermally resistant gloves is recommended when there is potential for exposure to molten product.

EYE/FACE: Not normally required for solid material, approved eye protection to safeguard against potential eye contact, irritation, or injury is recommended when there is potential for exposure to molten product.

INGESTION: No specific information established. If molten material is swallowed, seek immediate medical attention.

SECTION 9: Stability and Reactivity

CHEMICAL STABILITY: Stable under normal conditions of storage and handling.

CONDITIONS TO AVOID: Avoid all possible sources of ignition (see Sections 5 and 7).

INCOMPATIBLE MATERIALS: Avoid contact with strong oxidizing agents.

HAZARDOUS DECOMPOSITION PRODUCTS: Combustion can yield major amounts of oxides of carbon and minor amounts of oxides of sulfur and nitrogen.

HAZARDOUS POLYMERIZATION: Will not occur.

SECTION 10: Toxicological Information

CANCER/MUTATION: No data available.

TARGET ORGANS: No data available.

DEVELOPMENTAL: No data available.

PRE-EXISTING MEDICAL CONDITIONS: None known.

SECTION 11: Ecological Information

ECOTOXICITY: There is no information available at this time for this product.
PERSISTENCE/DEGRADABILITY: Product is expected to be readily biodegradable.
BIOACCUMULATION No appreciable bio-concentration is expected in the environment.
MOBILITY IN ENVIRONMENT: None known.

SECTION 12: Disposal Considerations

This material, if discarded as produced, is not a RCRA "listed" or "characteristic" hazardous waste. Use which results in chemical or physical change or contamination may subject it to hazardous waste regulations. Dispose of in accordance with applicable regulations for organic materials. Do not dump into sewers, any body of water, or onto the ground.

SECTION 13: Transport Information

Product is not classified as dangerous goods, therefore no special transport conditions apply.

SECTION 14: Regulatory Information

None

SECTION 15: Other Information

DISCLAIMER:

This document is intended to provide a brief summary of our knowledge and guidance regarding the use of this product. The information and data contained herein has been compiled from sources considered by Encaustic World Ltd. to be dependable and is accurate to the best of the Company's knowledge. It is not meant to be an all-inclusive document on worldwide hazard communication regulations.

This information is offered in good faith. Each user of this material needs to evaluate the conditions of use and design the appropriate protective mechanisms to prevent exposures, property damage or release into the environment. Encaustic World Ltd. assumes no responsibility for injury to the recipient or third parties or for any damage to any property resulting from misuse of the product.
